Resources, Tools and Data
The Current Landscape

Simon Messenger
Managing Director
Climate Disclosure Standards Board
To provide decision-useful environmental information to markets via the mainstream corporate report.
A world where decisions and actions in support of sustainable financial and environmental systems are facilitated by companies reporting the impact of climate change and natural capital information on their businesses with the same rigour, quality, and value as their financial capital information.
Creating the landscape to help companies translate sustainability into business impacts
Are companies ready for TCFD?

- 8 in 10 companies have Board-level oversight of climate change, with lower amounts in North America.
Are companies ready for TCFD?

- 8 in 10 companies have Board-level oversight of climate change, with lower amounts in North America.

- Fewer than 2 in 10 companies provide incentives to their Board members to manage climate change.
Are companies ready for TCFD?

- 8 in 10 companies have Board-level oversight of climate change, with lower amounts in North America.

- Fewer than 2 in 10 companies provide incentives to their Board members to manage climate change.

- 9 in 10 companies report climate-related risks and opportunities but the majority of actions taken on economic opportunities remain opportunistic, rather than strategic.
